

Capital & Coast DHB clinical and referral information supported by the new smart GP-Search Engine is now available on

www.healthpoint.co.nz

fast answers for DHB queries

Now, Healthpoint is enabling you to do much, much more with our new, smart, Primary Care focused search function. This has been developed in association with a working group of GPs so it means fast answers to the referral and clinical questions you have. It has the latest DHB referral and clinical guidelines, protocols and contacts, and private specialist and their practice details.

You must [register](#) and [sign in](#) on www.healthpoint.co.nz to access the referral and clinical information about CCDHB services.

For GP practices or PHOs please contact us on info@healthpoint.co.nz
 For GPs please register by clicking on the register at the top of the home page.

CCDHB now has information on services:

-  Referral criteria and priority
-  Management protocols for common conditions
-  New patient waiting times – updated monthly
-  Monthly newsletters and DHB updates

The services below are live:
