3M TEGADERM PROFESSIONAL DEVELOPMENT GRANT 2010

Do you know a registered nurse who is dependable, trustworthy or has gone beyond the call of duty and who deserves the chance to be nominated for the Tegaderm Professional Development Grant?

3M New Zealand is offering New Zealand registered nurses the chance to win one of four professional development grants. The first place winner will receive a grant worth \$1,250, and three runners up will each receive a grant of \$250.

The grant provides funding for the purposes of research and development, higher education or conference attendance, and is open to all New Zealand registered nurses.

The grant, offered by 3M, was developed to recognise New Zealand registered nurses who have gone beyond the call of duty, and made a true difference in their work.

In addition, there will also be 10 highly commended awards presented this year to finalists who will each receive a Littmann® Classic II SE Stethoscope.

You can nominate yourself or a colleague. Just email your entry to tegadermgrant@mmm.com before 30 November 2010 and, in 200 words or less tell us how you, or your nominee, has demonstrated examples of dependability, trust and versatility, and gone beyond the call of duty.

Nominees must be a New Zealand registered nurse, either in the public or private sector. The successful nominees will be selected by a panel of expert judges. The winners will be announced in February 2011.
