APPENDICES		
1. HVDHB MONTHLY FINANCIAL AND OPERATIONAL PERFORMANCE REPORT		

1. INTRODUCTION

1.1 Purpose

The purpose of this paper is to inform the board on the Financial and operational performance of the DHB to December 2019.

2. BACKGROUND

This is the first of a new format reporting to provide the Board with an overview of the performance of the organisation considering the performance of the District Health Board as a funder of services, as a provider of services and considers its overall financial performance.

This model will be further developed for the February concurrent FRAC and refined for the March concurrent Board. It is intended to give an overview of the people served, how Hutt Valley performs against Ministry targets and hospital performance. Current MHAIDS is consolidated within the financial reports but the operational performance will be included from March. The equity focus for Māori and other populations will continue to be developed and be a focus of all reporting.

Monthly Financial and Operational Performance Report

Introduction

This is the first of a new format reporting to provide the Board with an overview of the performance of the organisation considering the performance of the District Health Board as a funder of services, as a provider of services and considers its overall financial performance.

This model will be further developed for the February concurrent FRAC and refined for the March concurrent Board. It is intended to give an overview of the people served, how Hutt Valley performs against Ministry targets and hospital performance. Current MHAIDS is consolidated within the financial reports but the operational performance will be included from March. The equity focus for Māori and other populations will continue to be developed and be a focus of all reporting.

This is not the only reporting on performance. The Board and Health System Committee will receive reports on equity, implementation of Te Pae Amoranga, the Pacific Health Strategy, the Disability Strategy, performance of community providers and system performance for our communities and populations.

Financial And Performance Overview And Executive Summary

Executive Summary

Thousands of people every month are served by the Hutt Valley DHB. These numbers are lower in December than November due to the holiday period as shown on page 6.

The Ministry of Health monitor performance against key measures agreed in the Annual Plan. In the summary Hutt Valley achieved 8 of the key areas; partially achieved on six measures and three were not achieved; being immunisation targets, exclusive breastfeeding and smoking cessation.

Year to date the Hutt Valley DHB has a deficit of \$5.9m which is \$1.4m adverse to budget. Of this deficit \$5.6m is in the provider aspects of the DHB. Activity is 6.79% ahead of that planned. In the positive FTE are 45 below budget. There is a significant positive impact on the organisation with the cost of (patients going to other DHBs) inter district flows are favourable \$751k YTD.

From an outcomes perspective inequity remains a significant challenge with Maori, and Pacific experiencing lower rates of immunisation, breastfeeding and higher rates of avoidable hospital admissions known as ambulatory sensitive hospitalisations (ASH).

The forecasted financial position of Hutt Valley as advised to the Ministry of Health is \$8.6m deficit, being 6% adverse to budget.

People Served – December 2019 (November 2019)

HVDHB funds services that touch thousands of people in our community every month. December is traditionally quieter than November due to the holiday period.

Section 2

FUNDER PERFORMANCE

Child Health

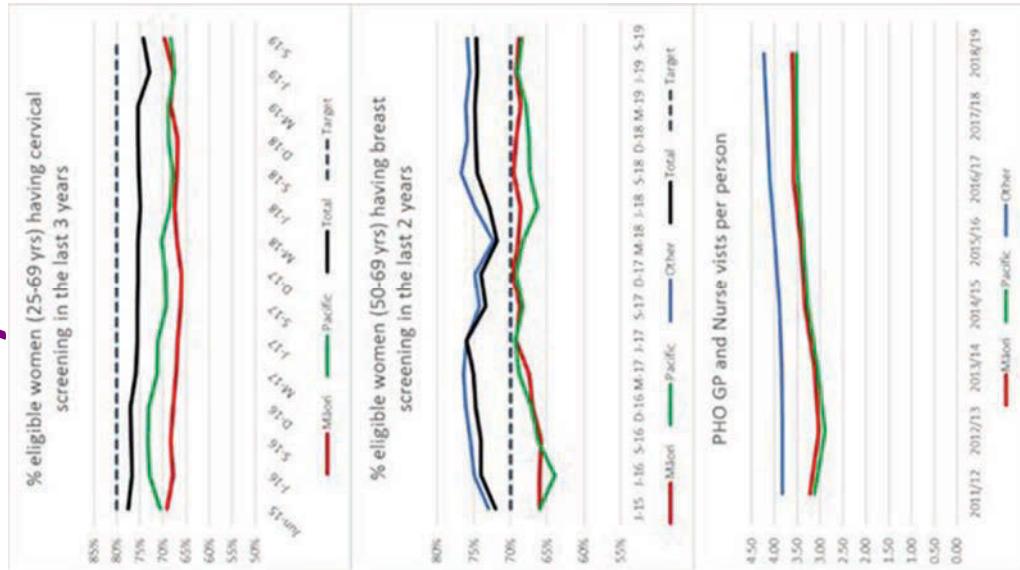

- The health of our children is a priority.
- Ambulatory Sensitive Hospitalisations reflect the incidence of preventable hospital care. This should be declining.
- As can be seen in the graphs inequities are persistent with our Pacific and Māori population carrying the greater burden. Asthma is the major cause of these admissions, followed by respiratory infections and dental conditions.
- Asthma and respiratory conditions are often a consequence of poor housing and heating.
- Hutt Valley's immunisation rate is better than the NZ coverage but significant inequalities exist for Māori and Pacific babies which needs to be a focus for improvement.

Health Screening and Primary Care

- Cervical and Breast Screening are an important part of wellbeing for our population supporting early intervention and better health outcomes.
- These results demonstrate significant inequities and highlight the need for a greater focus in access for Maori and Pacific women in screening.
- Cervical screening rates need focus as they are falling in the Hutt Valley. Rates for Maori women are improving but remain below the target and DHB average.
- Breast screening rates for Hutt women are relatively static however rates for Maori & Pacific women remain below target
- Although rising average primary care GP and nurse visits per person are much lower for Maori and Pacific people. This is essentially a level of underservicing that must be addressed by the models of care.

Funder Financials – Revenue

Revenue:

- Revenue is made up of base funding, other MoH revenue, other revenue and inter district flows. The table shows the variance for other MoH revenue.
- Base Funding is unfavourable to budget for the month (\$267k) and YTD (\$280k).
- Other MoH revenue is unfavourable (\$107k) for December and favourable \$316k YTD, driven by timing issues on other CFA contracts.
- Other revenue is unfavourable (\$851k) for the month and (\$2,347k) YTD, mostly driven by Hospital medicine rebates now included in expenditure (\$1,071k), and confirmation of MECA funding (\$500k).
- IDF inflows are (\$17k) unfavourable for the month and \$599k favourable YTD Driven by lower than expected volumes of patients transferring to Capital & Coast and Wairarapa DHB.

Funder Financials – Expenditure

Expenditure:

- Governance and Administration are on budget.
- Provider Arm payments favourable \$5k for the month and unfavourable (\$634k) YTD mostly related lack of patients transferring in from other DHBs to the hospital.

External Provider Payments:

- Pharmaceutical costs unfavourable (\$602k) to budget for December and unfavourable (\$736k) YTD, in line with seasonal patterns.
We are still waiting for confirmation of the Pharmac Forecast to confirm likely rebates and payments.
- Laboratory costs are unfavourable to budget by (\$29k) for the month and favourable \$443k YTD.
- Capitation expenses \$230k favourable for the month and favourable \$62k YTD offset by changes to revenue.
- Aged residential care costs are \$323k favourable for the month and \$345k YTD favourable. The residential care loan adjustment (reported within other HOP) is favourable by \$21k for the month and \$262k YTD.
- Other Health of Older People (including Pay Equity) costs are favourable by \$582k for the month and \$1,357k YTD.
- Mental Health costs are favourable \$280k for the month and \$556k YTD.
- Palliative Care, Fertility and Community Radiology costs are favourable by \$1,535k for the month, \$1,641k YTD. The contract to Fertility associations has expired and included in the IDF outflows.
- Other external provider costs are favourable to budget \$148k for the month, and \$444k favourable YTD due to timing of contracts.
- IDF Outflows favourable \$282k for the month and \$751k YTD, driven by mainly lower than expected CCDHB volumes.

Inter District Flows (IDF)

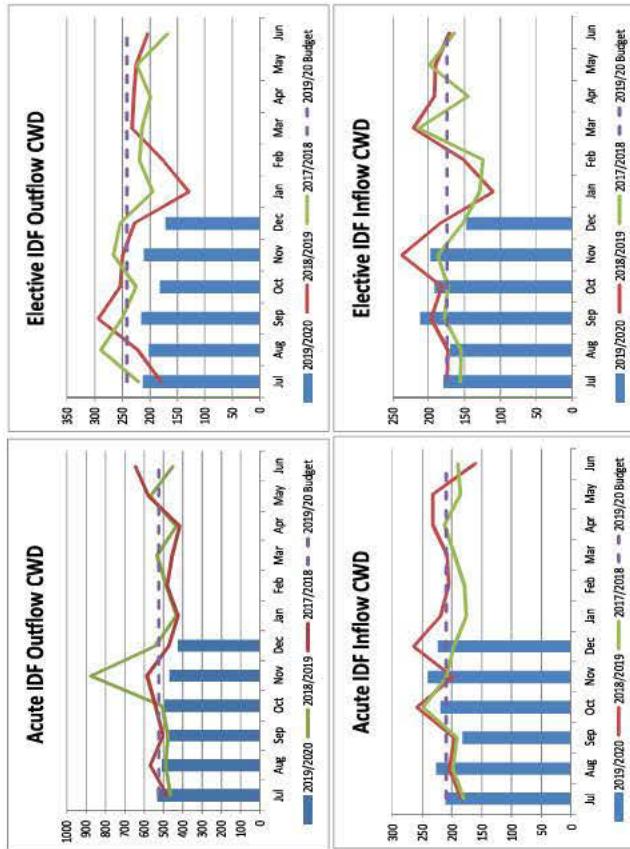

The movement of patients between hospitals generates inter district flows where one DHB funds another for the care provided that cannot be safely provided locally.

IDF inflow (revenue):

- Overall IDF inflows are above budget YTD by \$613k, mainly due to inflows for Inpatient services being \$506k over budget and other services being \$237k over budget. Inpatient inflows are over budget so far mainly in Plastics and Gastroenterology while Maternity and Medical are under budget.

IDF Outflow (expense):

- Overall IDF outflows are below budget by \$751k. Inpatient outflows are below budget year to date with 6 months data from CCDHB and 5 month from other DHBs. Flows to CCDHB are under budget by 322 CWD in total and 210 CWD below the same time last year.
- Acute outflows under budget particularly in Renal, Neurosurgery and Oncology, but this is offset by being over budget in Orthopaedics and Cardiothoracic. We have had one neonatal baby at Capital & Coast with high caseweights of 65CWD.
- Electives are under budget particularly for Capital & Coast and this is mostly due to elective Cardiothoracic being 122 CWD or \$634k below budget. At this stage of the year results are likely to change as data is updated.
- There was a large wash-up for 18-19 in Cancer Therapies of (\$752k) which brought the final to (\$1,092k) paid in October 19.

Section 3

Hospital Performance

Executive Summary – Hospital Performance

- The month of December was challenging as acute medicine inpatient activity continues to exceed budget however this month surgical services were impacted by the burns victims from Whakaari/White Island. These cases have used ICU beds and large amounts of theatre time impacting on other services. It was a privilege to watch how our hospital responded to this national emergency and a credit to all staff involved.
- Across a number of key operational and access performance indicators (on page 20) there is a need for sustained improvement in a number of areas measured and reported on during this report. Shorter stay in ED continues to be a challenge and the number of people waiting over 4 months for elective surgery continues to grow as do colonoscopy wait times. This latter growth is driven by significant demand in referrals. Long wait numbers are expected to deteriorate over the Christmas period with staff leave and service closures planned. We are engaged with the Ministry of Health to better understand and develop our planned care approach in moving towards better coordinated system responses.
- An agreed plan has been developed and is in place to support our hapu mama and whānau in accessing safe maternity care. The maternity project remains a significant priority.
- Reconciliation is underway to identify increases in FTEs that are driven by compliance as separate from productivity changes. This will allow better evaluation of lost productivity opportunities.

For the month of December, Medical discharges were over budget but less than last year. Surgical discharges were over budget for the month but less than the previous year. For December, Medical caseweights were under budget and more than the same time last year. Year to date, Surgical services have had more caseweights than budget but less than last year. Medical services have had more discharges than budget year to date, but less caseweights than budget. (Caseweights are the weighted system for measuring hospital inpatient activity)

ED volumes for the month were under budget and lower than the same time last year. The proportion of patients who were admitted from ED in December was similar to last year. Theatre visits for December were lower than budget and last year. Non-Theatre procedures in November were close to budget. Bed days were higher than budget in the month and December last year. Inpatient ALOS was slightly higher in December than budget but higher than the same time last year. The acute readmission rate was higher than budget for December and higher than the same time last year.

Emergency Department (ED)

- Presentation Volume
 - December saw 4,133 patients present to ED, 1.7% below December 2018
 - 9% did not wait for treatment
 - 25% were admitted which is above prior months and last year (24%)

 - Shorter Stays in ED
 - In December 84% of patients were seen and discharged or transferred within 6 hours. YTD 85% achieved the target the national target is 95%
 - Only 64% of admitted patients met the target which is below the YTD of 69%
 - Significant work will be launched to improve patient flow across the hospital to support flow from ED. Focus is on in length of stay and discharges before 11am and improving service care coordination assessments as part of an overall acute flow programme

The flowchart illustrates the patient journey through the Emergency Department. It starts with 'Arrivals - 4,133 (4,288)', leading to 'Triage'. From Triage, patients can follow one of three paths: 'Spent in Time' (leading to 'Diagnosis &/or Treatment'), 'Did Not Wait' (leading to 'Treated & Disch'), or 'Admitted' (leading to 'Admitted').

# Elective Surgery

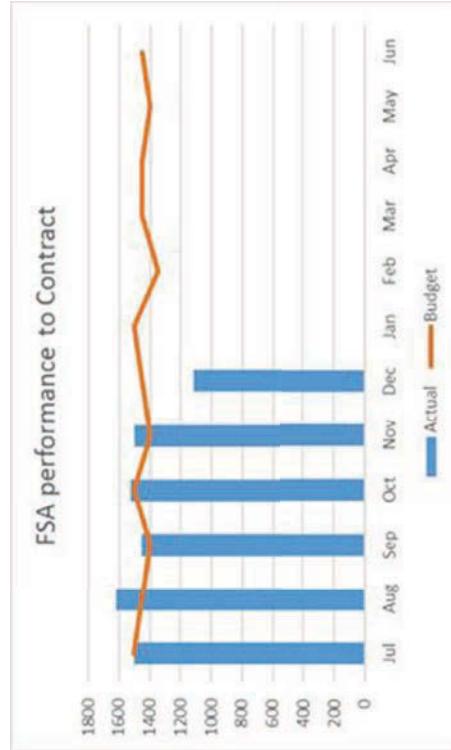

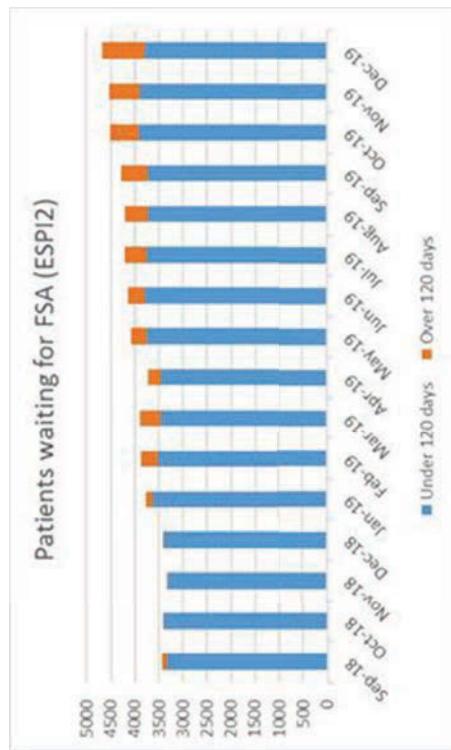

- Total number on the waiting list fell 1.7% to 2,275
- The number waiting greater than 120 days increased by 2% to 661. That is 29% are waiting longer the 120 days for treatment
- The biggest issues are in general surgery (51%) and orthopaedics (39%)
- We are not meeting the planned care discharges for our population (6% behind)
- Our population has had 3,987 discharges YTD against 4,221 at the same time last year
- Recovery planning for both ESPI 2 and ESPI 5 is ongoing with identified actions to improve in place with each service, discussed monthly with the Ministry of Health. Review of thresholds, clinic and theatre schedules, rostering and planned care activity continues – refer slide 26.

# Specialist Outpatients

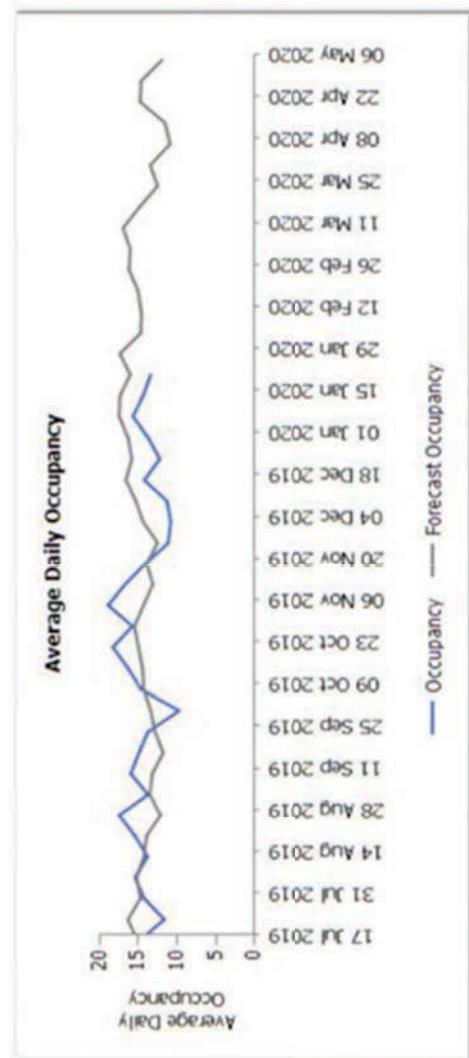

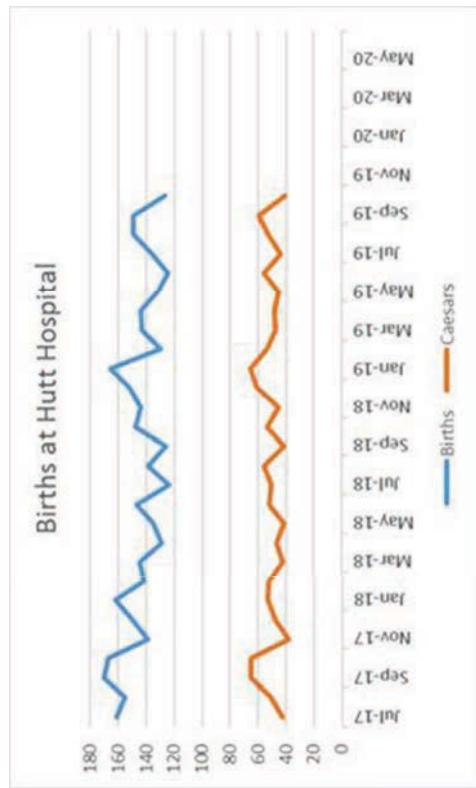

- The number of patients waiting for FSA has increased by 3% to 4,682.
- The number waiting more than 120 days has increased 40% to 888.
- 19% of patients have waited over 120 days for FSA.
- The longest waits are in plastics, general surgery and Orthopaedics. There are no long wait patients in the medical services.
- 7% of patients did not attend/did not receive their FSA appointment. This was significantly higher for Maori 14% and Pacific 16% suggesting that the models of care do not work for Maori and Pacific.
- YTD we are on budget for FSA having done 8,716 (budget 8,707)

# Maternity

- As the Board may be aware the safety of maternity is a significant priority and will be the subject of other reports.
- The number of births at Hutt hospital has remained relatively stable.
- The Caesar rate for the 12 months to Oct 19 was 37% which is an increase on the previous 12 months 34%.
- Average bed occupancy was lower than expected in December.

# Major Service Group Variances

- **Medical & Acute care (\$1,367k)** – Out sourced Medical Costs are high, reflecting the used of Locums to cover for vacancies. Out-sourced radiology and MRI are also above budget year to date as volumes continue to be higher than expected. Higher than expected costs have also been incurred in Clinical Supplies, mostly made up of Blood related products and Endoscopy consumables. The Radiology Department has been able to recruit to some of the MIT and Radiologist vacancies and 2 new Radiologists started in December/January which should mitigate the out sourced Medical Costs. The blood costs will continue due to the plastic surgery needs of our burns patients.
- **Surgical Women's and Children's (\$2,418k)** – Medical Costs are higher than expected due to increase over time for RMIO's, Nursing costs are also high year to date including increased costs across Plastics, operating theatres, children's health and Women's health. Closer scrutiny of the drivers of these costs especially around minders is underway. Clinical supplies costs are above budget driven by increased prosthesis costs as acute Orthopaedic volumes continue.
- **Community Health (\$914k)** – overall YTD position comparable to last month. OPRS nursing costs for minders providing one to one care and District Nursing to cover increased volumes continue to be above budget. Clinical supplies including patient appliances and consumable continues to be above budget for District Nursing (9% above target year to date).
- **MHAIDs (\$511k)** – overall YTD position comparable to last month. Outsourced nursing and medical staff continue to be above budget (including staff employed by CCDHB working at Hutt). Resourced for 23 beds consistently using 26 beds. Discussion held in relation to revenue from CCDHB for increase in bed usage for CCDHB residents not concluded. Revenue from Wairarapa received for increased use of beds by Wairarapa residents.

**2 UPDATE**

**2.1 CORONAVIRUS UPDATE**

The report was taken as **read** and the Committee:

- (a) **Noted** this update on the COVID19 and the respective roles in managing the risk.

**2.2 WELLINGTON PRIMARY BIRTH UNIT UPDATE**

The report was taken as **read** and the Committee:

- (a) **Noted** the Wellington Primary Birthing Unit (WPBU) Feasibility Report was completed in July 2019 and found that there is sufficient activity, and support from women and midwives, to support a Wellington-based PBU.
- (b) **Noted** that in July 2019, the CCDHB Health System Committee (HSC) and Board endorsed a future WPBU, noting it would be an investment decision for CCDHB.
- (c) **Noted** that to determine the affordability of a potential future WPBU, the HSC and Board endorsed that CCDHB explore opportunities for partnerships with private, philanthropic or other agencies, to be delivered to HSC by March 2020.
- (d) **Noted** that in late 2019, maternal and neonatal services was identified as a priority work stream in the Joint (2DHB) Hospital Provider Network Programme.
- (e) **Noted** that a project to deliver a Te Ao Māori joint maternal and neonatal health system has been initiated.
- (f) **Noted** the process to identify potential partners to develop a future WPBU is on pause pending the joint maternal and neonatal system plan in 2020 and will then be represented to the HSC.

### **2.3 PORIRUA #YOUTHQUAKE UPDATE**

The report was taken as **read** and the Committee:

- (a) **Noted** that a CCDHB initiated a project to integrate youth services in Porirua in 2018/19.
- (b) **Noted** that a co design process with rangatahi, partners and providers was completed between January and September 2019 to inform the model for an integrated youth service for Porirua.
- (c) **Noted** that a report and recommendations were endorsed at HSC and by the CCDHB Board in September 2019 with the priority focus being the development of a youth one stop shop (YOSS).
- (d) **Noted** that delivering a YOSS requires an additional \$600,000 per year investment, which will be a decision for the CCDHB Board in the 2020/21 budget process.
