

2DHB Mobile Teams for COVID-19 testing in residential care facilities

Hutt Valley and Capital and Coast District Health Boards have established mobile teams to provide outreach testing in residential care facilities. These teams will support facilities to access timely swabbing and testing for residents.

GPs who provide services to residential care facilities are able to undertake swabbing themselves or access the mobile team as set out below.

Process for accessing 2DHB mobile COVID-19 swabbing team

Mobile teams will be based at existing CBAC sites.

Mobile Teams for Residential Care
