

Your Trip to the Audiology Clinic

START

1

Hello! Please sit or play in our waiting room.

2

An audiologist will call your name when it is your turn.

3

The soundproof room is where we will check your ears. It is a very quiet room. First, we will talk about your ears.

4

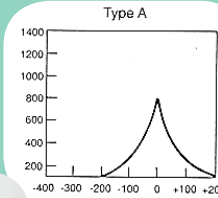

Next, we will have a look in your ears with our special light.

5

Ear pictures are next!

6

Shhhh.....time to listen to robot music.

7

Then it's time for a listening game!

8

First, you will need some headphones to hear the sounds. . .

9

Wait and listen for the whistle or beep. . .

10

Turn and look for the puppet or video.

When you hear a sound put the peg on the board....or the person in the boat.

11

Yay! Well done! Just a bit more talking.

12

Finished! Time to go home.
