Requirements for completing Self Assessment at RN Competent level

In each newsletter, requirements of a competent level KPI against one of the Nursing Council Competencies are outlined. Please refer to previous newsletters for information about other competencies. Newsletters are available at: <https://www.ccdhb.org.nz/working-with-us/nursing-and-midwifery-workforce-development/primary-and-community-nursing/#pdrp-newsletter-for-primary-community-and-arc>

Competency 1.3:

1.3 Demonstrates accountability for directing, monitoring and evaluating nursing care that is provided by enrolled nurses (ENs) and others.
Describe the differences in accountability and responsibility for the RN, EN and unregulated health care worker and how this impacts on the process of direction or delegation.
Consider the difference in RN and EN scope of practice and what this means in your work context. (Unregulated workers do not have a scope of practice their practice is determined by their role description and NCNZ guidelines.) Refer to NCNZ guidelines for direction and delegation to answer this performance indicator. Even if you do not actually work with ENs or unregulated workers, all

To meet the requirements: describe the differences in accountability and responsibility for ALL 3 roles. This is required, even if you do not work with them.

RN: Describe the accountabilities and responsibilities of an RN

EN: Describe the accountabilities and responsibilities of an EN.

Unregulated Health Care workers: E.g. HCAs, caregivers, support workers etc: Describe the accountabilities and responsibilities of an unregulated health care worker.

Describe how these differences impact on direction and delegation. You may want to give a specific example for your practice to demonstrate this that describes how you kept yourself, the other person, and the patient/resident/client safe.

Peer assessment

Peer assessment is assessed as part of the portfolio and needs to include a specific example of how the peer assessor knows that the nurse is meeting the key performance indicator of the competency.

Examples of peer assessment for competency 2.3 (at competent level):

“This is a clear example of how Nurse A meets this competency” X

This example of peer assessment does not meet requirements because it does not provide specific examples from practice.

“Nurse A consistently ensures documentation is accurate and maintains confidentiality with IT” X

This peer assessment example does not meet requirements because it does not provide specific examples from practice.

“Nurse A consistently ensures that documentation is accurate by ensuring that all information is recorded clearly, completely and objectively in the PADP. Nurse A maintains confidentiality when using IT by logging off when leaving the workstation and by keeping her password confidential.” ✓

✓ This example of peer assessment meets requirements because it includes specific examples of how the nurse’s practice meets the key performance indicator of this competency.
